TECHNICAL SKILLS

Frontend:

React, Vue, Vuex, Nuxt, JavaScript, HTML/CSS, Scss, Tailwinds, Axios.

Backend:

Node.js, Express, PostgreSQL, Firebase.

Dev Tools:

Git, Github, Postman, npm.

ANTONIO MARTINEZ

Full-Stack Developer

As a Full-Stack developer with a profound passion to delivering high-quality work, I bring meticulous attention to detail, strong problem-solving skills, and great resilience to every team I collaborate with. I exhibit a high level of adaptability to new environments, embracing challenges with determination and viewing them as opportunities for growth. I hold a profound sense of responsibility for the tasks entrusted to me and I keep myself learning new things to consistently broaden my skills.

SOFTWARE ENGINEERING PROJECTS

MilloRifas – The raffle app

<https://millorifas.com>

Technology Utilized: Vue.js, Vuex, Vuelidate, Vue Router, Javascript, HTML/CSS, Bootstrap, AWS, Node.js, AWS, MySQL.

Synopsis: Millorifas is a raffle site. Users create accounts and wallets, buy tickets, make deposits, request withdrawals, and track transactions. Administrators manage users and employees with role-based access controls.

Technical Results: Features a dynamic Vue.js frontend with Vuex and Vuelidate, Vue Router for routing, and Bootstrap for responsiveness. The scalable Node.js backend uses MySQL for data management. Deployed on AWS for scalable cloud services and secure storage.

Vehicles Marketplace

<https://vehicles-marketplace.web.app>

Technology Utilized: Vue.js, Vuex, Vuelidate, Vue Router, Javascript, HTML/CSS, Firebase, GitHub, Actions/CI.

Synopsis: Dealers can register, create accounts, and manage their inventory. Users can explore vehicles based on various criteria.

Technical Results: The web app uses Vue.js for the front end and Firebase for the back end, including user management and Firestore cloud storage. Vuelidate handles form validation, Vuex manages inventory state, and Sass CSS styles the responsive UI. Automated deployment is managed via GitHub Actions on Firebase Hosting.

OTHER SKILLS

- Problem-solving
- Teamwork
- Attention to detail
- Persistence
- Resilience
- Patience
- Adaptability

Portfolio Website

<https://antoniomartinez.tech>

Technology Utilized: Vue.js, Vuex, Vuelidate, Vue Router, Javascript, HTML/CSS, Firebase, GitHub Actions/CI.

Synopsis: The web app showcases my web development skills, work, and passion, it also features a blogging interface.

Technical Results: The website uses Vue.js for the front end and Firebase for the back end, including admin authentication, projects, and blogs. Vuelidate handles form validation, Vuex manages blog post state, and Sass CSS styles the responsive UI. It's deployed on Firebase Hosting with continuous integration via GitHub Actions.

EDUCATION

Full Stack Software Engineering

Pursuit Fellowship | Long Island, NY. | October 2023

Relevant Course Work: React, PostgreSQL, Express, Node.js, Javascript, HTML/CSS, SCSS, Test Driven Development.

Education Specialist

Dominico Americano University | October 2016

Relevant Course Work: Educational Research, Education Evaluation and Assessment, School Supervision, Project Design and Evaluation.

Bachelor of Arts in English

UASD University | August 2014

Relevant Course Work: Introduction to General Linguistics, Basic Mathematics, Morphology and Syntax I, Phonetics and Phonology, English Literature, Introduction to Education, among others.

Other courses:

Vue.js, Nuxt.js, Javascript, HTML/CSS, Clean Code, Data Structures and Algorithms.
